

2nd EDITION **new!**
SEPTEMBER 2014-2015
COOPERA(C)TION DAY
COURSE PRESENTATION

POST GRADUATE PROGRAMME

COOPERA(C)TION KNOWLEDGE AND SKILLS FOR SUSTAINABLE CITIES IN THE GLOBAL SOUTH

The Course aims at promoting a culture of international cooperation among students, scholars and practitioners in the fields of urban design and management, by acquiring:

- The ability to understand the contexts and interact with people and organizations of the Global South
- The specific ability to share the search for solutions to face the challenges raised by radical socio-economic, environmental and cultural changes caused by globalisation, above all the rapid and massive urbanisation processes in Countries of the Global South, which raise dramatically new problems of spatial and social inequality, as well as a new and difficult environmental challenge related to the climate change.

The Course offers to new generation of experts the chance to acquire skills and knowledge that will help them to develop an integrated and multidisciplinary approach to planning, design and management of urban settlements and territories in contexts with a high level of social, economic, territorial, and landscape vulnerability.

THEME MODULES

- SETTING THE SCENE M0
- CITIES AND TERRITORIES IN THE GLOBAL SOUTH: A NEW CHALLENGE AND A NEW COOPERATION PERSPECTIVE FOR URBAN PLANNING, DESIGN AND MANAGEMENT PROFESSIONS
